## DINED WITH A DARKEY

Bishop Potter Wins Notoriety by Eating with a Bishop from the Dark Continent

Richmond, Va., Oct. 20.—Bishop Potter will probably find himself the center of as great a storm as has been aroused in the South in years, as a result of his action last night in entertaining at dinner Bishop Ferguson, of Africa, the only negro entitled to membership in the House of Bishops in the General Episcopal Convention now in session here.

Southern delegates are already protesting that the bishop's entertainment of a negro is a direct slur upon the South. One result of his action may be to raise the race question in the present convention, as some Southern delegates are considering the advisability of making a public protest.

No. 107.  
TREASURY DEPARTMENT,  
STATE OF FLORIDA

Now, Therefore, I, A. C. Croon, Comptroller of the state of Florida, by virtue of the authority vested in me by Section 2702 of the General Statutes of the state of Florida, certify that the Munroe & Chambliss Bank, of Ocala, in the county of Marion, and the state of Florida, is authorized to commence the business of banking under the name above given with a capital stock of fifty thousand dollars.

### CANAL MUST BE WIDER

To Allow Passage of Such Giants as the Lusitania

Washington, Oct. 22.—Lieut. H. H. Rousseau, civil engineer in the United States Navy and a member of the Isthmian Canal Commission, has arrived here from the Isthmus and laid before Secretary Metcalf a proposition to increase the projected width of the Panama Canal, which is now planned at 100 feet in the locks. The recommendation is based upon the rapid increase of beam in naval construction since the canal plans were formed.

Undoubtedly naval exigencies, supplemented by the building of the giant Cunard's Lusitania and Mauritania, were the basis for this projected change of plan which will involve the expenditure of many additional millions of dollars and perhaps the extension of the time required for the completion of the canal project.

"PNEUMONIA'S DEADLY WORK" had so seriously affected my right lung," writes Mrs. Fannie Connor, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbors' prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by Tydings & Co., druggists. 50c and \$1. Trial bottle free.

Thomas A. Edison, the great American inventor, says: "Fully eighty per cent of the illness of mankind comes from eating improper food or too much food; people are inclined to over-indulge themselves." This is where indigestion finds its beginning in nearly every case. The stomach can do just so much work and no more, and when you overload it, or when you eat the wrong kind of food, the digestive organs cannot possibly do the work it demands of them. It is at such times that the stomach needs help; it demands help, and warns you by headaches, belching, sour stomach, nausea and indigestion. You should attend to this at once by taking something that will actually do the work for you. Kodol will do this. It is a combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by Anti-Monopoly Drugstore.

### CUTTING PRICES ON COPPER

Is the Way August Heinze Expects to Recoup Himself for his Lost Fortune

New York, Oct. 21.—His fortune shattered, his prestige gone, bitter against Wall street and the financiers here, August Heinze, the late "Copper King," it is asserted, intends to go back to the mines and rehabilitate himself and carry out his fight against his opposing copper rivals.

He is determined to dispose of his New York holdings and to go back to Montana, where he expects his mines will shortly yield him enough to face his old rivals on an equal footing.

According to a friend, Heinze knows that he can produce copper at 6 cents a pound that will drive the other concerns out of business.

This is regarded as a practical outline of his future plans.

### A RADIUM MINE

FOUND IN THE ALPS

Geneva, Oct. 21.—A radium mine has been discovered in the Alps by Prof. Joly, a noted geologist. He declares that there is a rich deposit of radium in that part of the Alps through which the Simplon tunnel runs, and that stones collected during the excavation of the tunnel reveal richer traces of the precious stuff than are known anywhere else in Europe. He also says that the cause of the abnormal heat experienced by the men excavating the tunnel was the large deposit of radium in that region.

### TRIAL MARRIAGE TROUBLES

Cleveland, O., Oct. 21.—Vern Williams, aged three years, was born of a trial marriage. His parents found, after living together five years, that they were ill-mated. The mother left the father last Monday night and was married to another man. These circumstances put innocent little Vern in the county jail on a writ of habeas corpus, for neither the father, Earl Williams, nor the mother, Mrs. Beesie Dunlap, was willing when quitting each other to give up their child.

Williams managed to hold Vern by right of night, and Mrs. Dunlap took recourse to court, which gave her the child.

Vern's father and I came to Cleveland from Erie, Pa., Mrs. Dunlap told the court. "He separated from his wife and I was divorced. Each of us had been disappointed in wedlock and we decided to live together without marrying. We believed at the beginning that we were happy. Vern was born to us, but as time went on we did not get along so well. Then I met the man I have married."
